

MOMENTIVE PRODUCTS

Fully authorized Momentive distributor.

KLX is an authorized distributor for all Momentive Aerospace products. With a wide range of Momentive sealant and adhesive products on the shelf and ready to ship, KLX can support your immediate requirements. Our systems ensure flow down of all specification requirements and with inventory positioned around the world, KLX supports you wherever you operate.

Momentive sets the standard of excellence in aerospace and aviation silicone technologies, producing a wide range of materials used in cockpit, cabin, engine, landing gear and structural applications. RTV silicones consist of rubber and gel products developed for adhesion, sealing, coating and encapsulating/potting applications. Silicone provides inherent excellent temperature performance, high temperature stability and low temperature flexibility, excellent dielectric properties, and outstanding weatherability resistance.
